

**CERTIFIED RELIABILITY** – THE PARTNER PROGRAMME FOR EFFICIENT QUICK COUPLER SYSTEMS

»The Clean System Seal takes on a beacon of excellence function for the retail trade.«

Franz Josef Schauer, Managing Director

# EFFICIENT PARTNERS FOR EFFICIENT SYSTEMS

The variety of systems has grown along with the rising success of the quick coupler – and with it the number of possible system combinations. Practice shows that mixed operation of this type creates unforeseeable complications, even at safety-related interfaces. As a specialist dealer or rental fleet operator, you play an important role

in providing purchasing and application advice and after-sales service. We are confident team players and believe in the power of a strong network. Which is why we introduced the voluntary Clean System Seal in 2019: Join forces with us and many like-minded OilQuick sales partners for homogeneous system landscapes!

# BECAUSE YOU DESERVE THE ORIGINAL

Competition is important because it keeps the focus on new ideas and increases the pace of innovation. We are always open to engaging partnerships and in-depth communication - but we are cautious when our products are combined across brands. The Clean System Seal provides orientation and helps to avoid risks. There is one

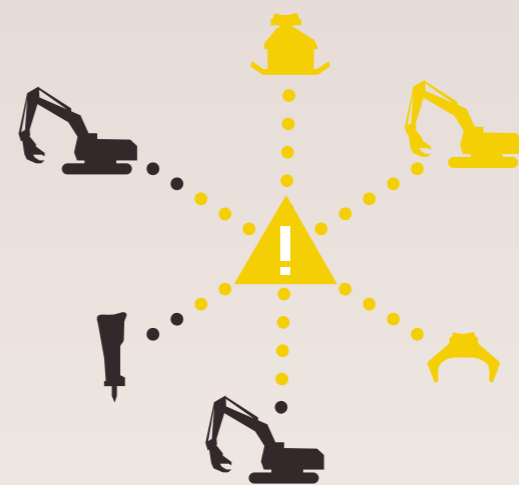

thing we clearly sense in our talks with manufacturers, dealers and fleet managers: The Clean System concept has struck a chord in the industry. One year after the initiative was launched over 100 Clean System partners are already committed to homogeneous system landscapes.

**We look forward to the next 100 partners!**

THE SCHAUER FAMILY

# WELL-THOUGHT- OUT DOWN TO THE LAST DETAIL UNBEATABLE IN THE SYSTEM

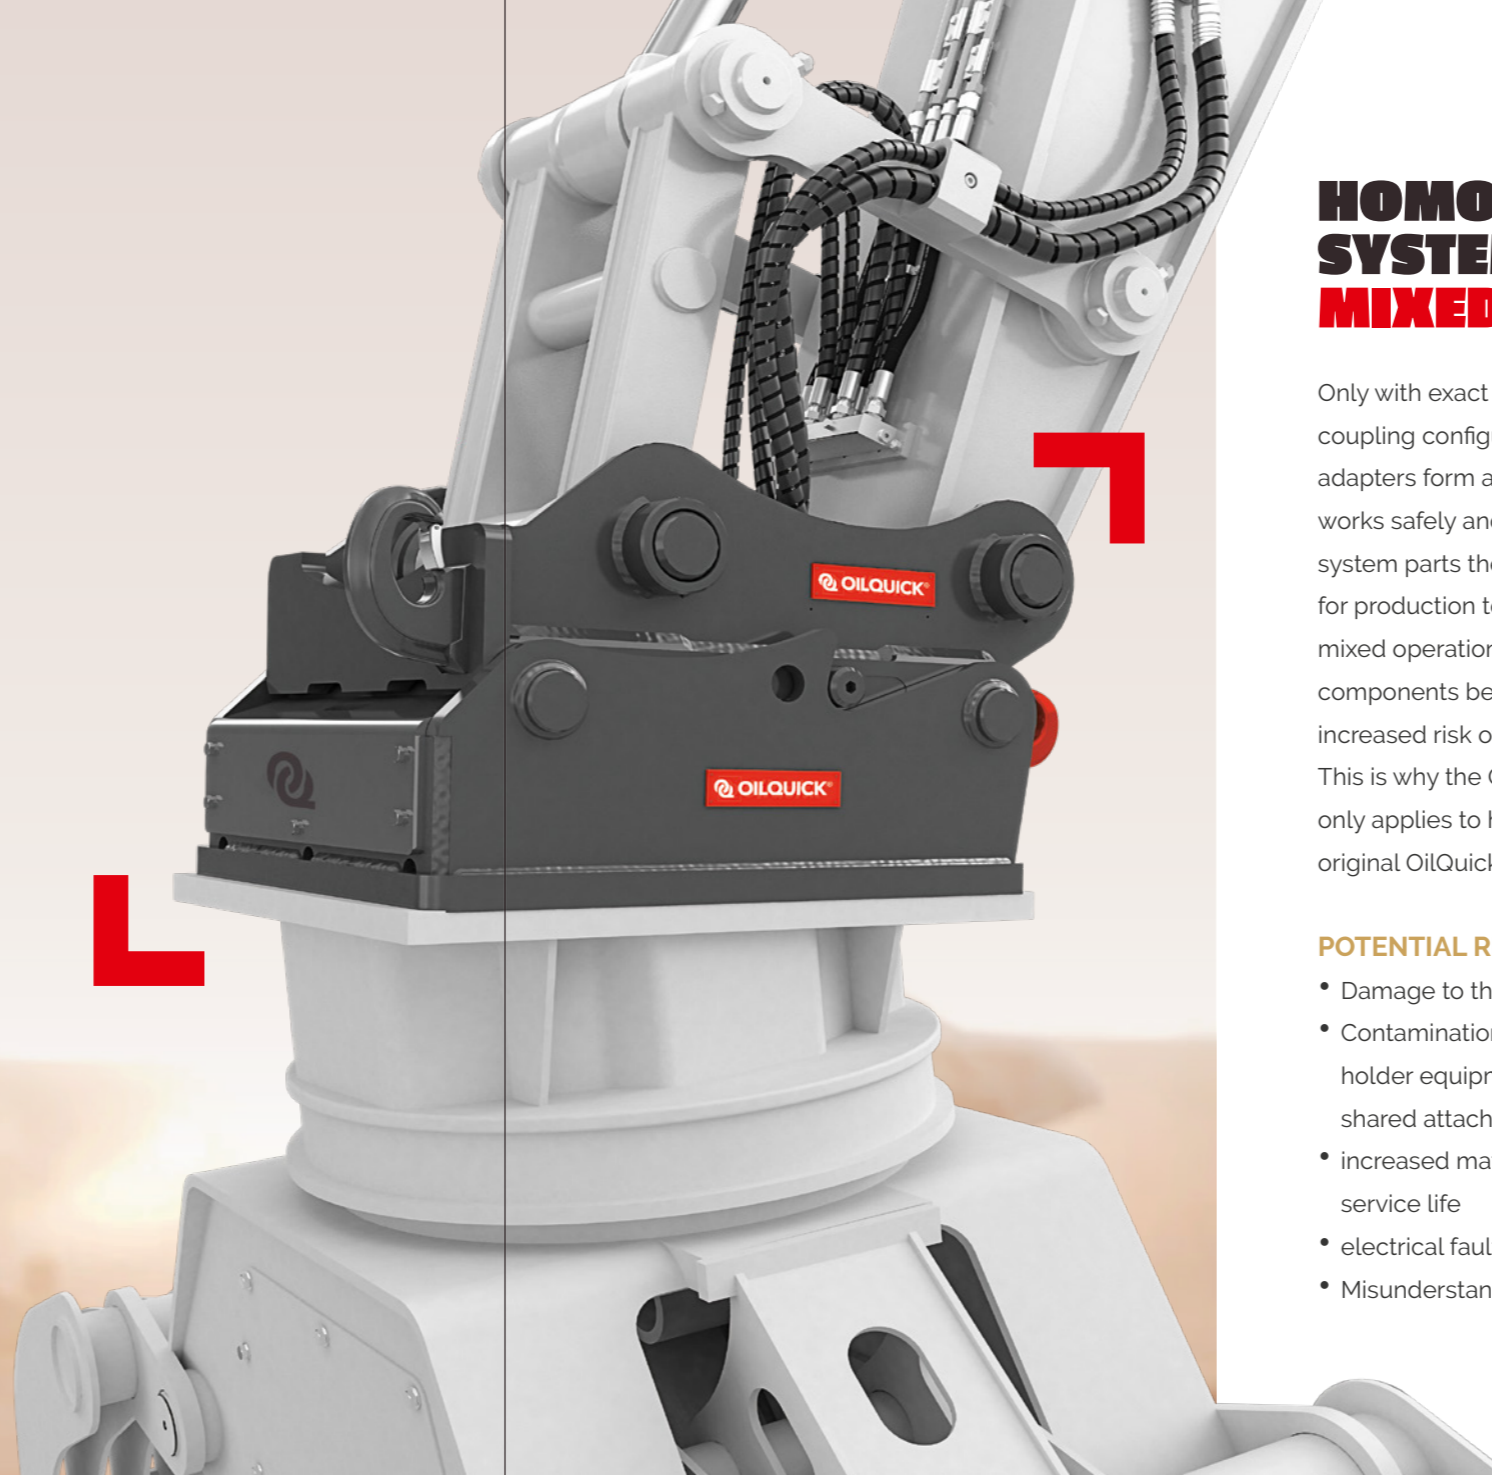

The main reason for the impressive performance of our overall system:  
OilQuick quick couplers and tool adapters are not only robust and durable,  
but also perfectly matched to each other.

Contamination during mixed operation

A clean, homogeneous system

## HOMOGENEOUS SYSTEM VERSUS MIXED OPERATION

Only with exact dimensional accuracy and precise coupling configuration do quick couplers and tool adapters form a seamless connection that works safely and trouble-free. All OilQuick system parts therefore meet the highest demands for production tolerances and material quality. In mixed operation, the coupling of non-system components becomes a critical point with an increased risk of wear, malfunctions and accidents. This is why the OilQuick manufacturer's warranty only applies to homogeneous systems with original OilQuick parts!

### POTENTIAL RISKS:

- Damage to the hydraulic system
- Contamination of the oil circuit of other holder equipment and attachments through shared attached tools
- increased material fatigue and reduced service life
- electrical faults in safety-relevant circuits
- Misunderstandings of the locking situation

DID YOU  
KNOW THIS?

## THE MYTH OF THE STANDARD INTERFACE

**The fact is:** There is no internationally standardised or normed interface for quick couplers – and consequently no universal compatibility amongst systems from different manufacturers. Hence, the mixed operation of components from different brands entails a number of risks. This is why the OilQuick manufacturer's warranty only applies to homogeneous systems with original OilQuick parts!

We are convinced that custom solutions such as the OilQuick system are the best strategy. Standards applying to all manufacturers are always the 'lowest common denominator' – which we see as a compromise to the detriment of our customers. The high level of ongoing coordination required for a standard would slow the pace of innovation, as well as the diversification our market requires. **And what's more:** Identical geometry alone does not automatically guarantee the same level of quality.

# OUR SHARED GOAL: INSPIRE CUSTOMERS

You sell or hire out construction machinery and attachments and have made a name for yourself with first-class advice and premium products. Now you are looking for ways to improve the quality management of the fleets you manage. This is where Clean System comes in:

## THIS IS WHERE OUR CLEAN SYSTEM PARTNER PROGRAMME COMES IN:

The Clean System Seal indicates that you deal responsibly with the values of your customers, because homogeneous system landscapes minimise risks and maximise performance. And sustainably.

### OPERATIONAL RELIABILITY

by avoiding disruptions and downtimes

### BEST POSSIBLE OCCUPATIONAL SAFETY

by lowering the risk of accidents

### INVESTMENT SECURITY

from a long service life and high value retention

### WARRANTY PROTECTION

by the use of original parts

# MAXIMUM PERFORMANCE. MAXIMUM CUSTOMER SATISFACTION.

## 4 BENEFITS FOR RETAIL PARTNERS

**1** Clean System protects your most valuable product: **TRUST.**

**2** The Clean System Seal is a valuable **MARKETING TOOL.**

**3** Clean System lowers your costs for **WARRANTY PROCESSING.**

**4** Clean System attests to your **PROMISE OF QUALITY.**

# WHAT EXACTLY DOES BECOMING A CLEAN SYSTEM PARTNER MEAN?

**First off:** Joining Clean System does not leave you with a choice between the various system providers. As a Clean System partner, you are still completely free to put together your brand portfolio as you wish.

Clean System is an interest group of OilQuick retail partners with a particularly high standard of safety, reliability and sustainability.

**SO, AS A CLEAN SYSTEM PARTNER, YOU ENSURE THAT:**

- OilQuick products are not be indiscriminately combined with other quick coupler systems
- every constellation involving more than one brand is checked by us
- only original spare parts are used for servicing
- your customers are made aware of the risks of mixed operation

# »WE ARE A CLEAN SYSTEM PARTNER, BECAUSE...«

**Clean System is a hit:** Over 100 firms and rental fleets in the construction machinery sector already bear the Clean System Seal – from A for ALLU Group to Z for Zeppelin Baumaschinen.

**Coordination:**

anna.betz@oilquick.de

»The Clean System Seal is visible evidence of the high operational safety of our construction machinery, both in sales and in our rental fleet.«

SCHÜNKE BAUZENTRUM  
BAUMASCHINEN GMBH

»We're continuously working on innovative solutions for maximum driver safety and improved construction site efficiency. By participating in the Clean System initiative, we're consolidating our position as a professional, reliable partner for our customers.«

ZEPPELIN  
BAUMASCHINEN GMBH

ALLU GROUP

»Customer focus is a central element of our corporate philosophy. The Clean System partnership highlights our above average quality and service standards.«

KIESEL GMBH

»Being in good hands – is part of our mission statement. After all, our customers work in a demanding and often dangerous environment. The Clean System Seal makes an important contribution to occupational safety and therefore builds trust.«

# THE NETWORK CONTINUES TO EXPAND. JOIN IN!

With the Clean System Seal, more and more dealers are committed to actively lowering risks and to ensuring sustainable fleet performance. **Are you in?**

**YOUR PERSONAL  
SEAL AWAITS YOU:**

**OFFICIAL  
PARTNER**

**PARTNER**  
COMPANY LOGO

Do you have any questions about the Clean System Seal or are you interested in a partnership? **Franz Josef Schauer** will take time to talk to you and give you all the details.
