PERFORMANCE TO THE POWER OF FOUR

THE EVOLUTION OF THE QUICK COUPLER

FROM PIONEER TO MARKET LEADER

Almost 30 years ago, OilQuick launched the first fully hydraulic quick coupler, revolutionising the construction industry. We are still visionaries. Because OilQuick is not only in touch with the latest trends, but also continually aims to set new standards. Every day, our engineers

work on innovations that allow attachments to be changed more quickly and safely. The aim: We develop products that improve your work. We not only consider efficiency, but also assume responsibility for your safety and the investment security of your machines.

THE SCHAUER FAMILY

EFFICIENCY MEETS OCCUPATIONAL SAFETY: YOUR SAFETY REDEFINED

SMARTER: VISUAL MRL DISPLAY

Popular with machine operators and acclaimed by health and safety experts: The OilQuick visual MRL display was jointly developed with users and makes locking control easier than ever before.

MORE EFFICIENT: OILQUICK APP

Smartphones and tablets have long been part of the standard toolbox of machine operators and service technicians on construction sites. In our OilQuick App you will find many practical digital services for your quick coupler!

MORE SUSTAINABLE CLEAN SYSTEM

From A for ALLU Group to Z for Zeppelin Baumaschinen: More than 100 partners in the construction machinery sector are already working with us to promote homogeneous quick coupler systems.

SAFER: DROP GUARD

Incorrectly mounted attachment? Accidentally opened locking bolts? The OilQuick drop guard reliably prevents your attachments from falling.

VISUAL MRL DISPLAY: CORRECT LOCKING GUARANTEED

In day-to-day work on the construction site, you need to be able to easily control locking of the quick coupler even in stressful situations. Our patented visual

MRL display is currently the only mechanical visual display on the market that meets all the requirements of the Machinery Directive. Our users appreciate this too.

»The new OilQuick solution makes visual control significantly easier and more reliable.«

A QUICK GLANCE IS ENOUGH: IF IT IS GREEN, THEN IT IS OK!

"Simple and robust, please!" That was the locking control requirement of the machine operators we surveyed. Implementation was a bit tricky. In order to rule out misinterpretations, the usual combinations of different coloured pins for different locking situations in use till now were out of the question. Our visual MRL display has a very decisive advantage: There is only one pin and one colour – and only a single correct status on the visual display. This allows you to quickly and clearly see whether the quick coupler is locked correctly, independent from sensors and electronics. Another advantage: From the machine operator's point of view, the large pin moves horizontally and is thus 650 percent more easily perceived.

The visual MRL display is a standard feature of all newly delivered OilQuick quick couplers and can also be retrofitted.

DID YOU KNOW THIS?

The OilQuick visual MRL display, like the OilQuick drop guard, is subsidised by BG Bau and can be retrofitted to existing systems at any time.

OILQUICK APP: YOUR DIGITAL ASSISTANT

The OilQuick app helps you to perform routine tasks such as ordering spare parts, maintenance and repairs more quickly and easily – directly on the construction site using your smartphone or tablet.

**DOWNLOAD NOW
FREE FOR IOS AND
ANDROID**

CONVENIENT MAINTENANCE

The digital maintenance plan is particularly popular: The app reminds you in good time of maintenance tasks and supports you with detailed checklists. All done? You can check your maintenance intervals at any time via the history.

FAST SPARE PARTS ORDERING

With the help of the geo-based dealer search feature, you can find OilQuick dealers near you in seconds, select spare parts and save them as favourites.

INTERACTIVE SERVICE HELP

Video tutorials and instructions guide you step by step through minor repairs and maintenance work. Still have questions? If so, our service staff is ready to help in a WhatsApp chat.

DROP GUARD: THE EXTRA BENEFIT FOR YOUR SAFETY

Every year, over 100,000 work-related accidents occur on construction sites, the causes of which include falling tools and suspended loads. The movable OilQuick safety catch extends the quick coupler claw, which closes around the shaft at the attachment adaptor. This prevents attachments from falling and injuring you or your colleagues – even if the quick coupler locking mechanism should happen to not be properly closed.

Our innovations also impress the technical experts: Berufsgenossenschaft der Bauwirtschaft (BG Bau, statutory accident insurance for construction and construction-related services in Germany) awarded OilQuick the EuroTest Prize 2019 for its "outstanding technical occupational safety and product safety" achievements.

YOUR SAFETY REDEFINED

»The risk of accidents on construction sites is high – the OilQuick drop guard can save lives!«

CLEAN SYSTEM: PARTNER PROGRAMME FOR CERTIFIED RELIABILITY

HOMOGENEOUS SYSTEM VS. MIXED OPERATION

The variety of systems has grown along with the rising success of the quick coupler – and with it the number of possible system combinations. Practice shows that mixed operation of this type creates unforeseeable complications, even at safety-related interfaces.

POTENTIAL RISKS

- Damage to the hydraulic system
- Contamination of the oil circuit of other holder equipment and attachments through shared attached tools
- increased material fatigue and reduced service life
- electrical faults in safety-relevant circuits
- Misunderstandings of the locking situation

Which is why we introduced the Clean System Seal in 2019: Over 100 dealers and rental fleets have already voluntarily undertaken to not combine OilQuick quick couplers with products from other manufacturers and to only use genuine spare parts. Because when we guarantee your safety, for us this also means the smooth operation and long service life of our quick couplers.

Contamination
during mixed operation

A clean,
homogeneous system

THE CLEAN SYSTEM NETWORK IS EXPANDING OVER 100 EFFICIENT PARTNERS

From A for ALLU Group to Z for Zeppelin Baumaschinen:
Over 100 firms and rental fleets in the construction machinery sector already bear the Clean System Seal. Do you want to locate a Clean System dealer in your area? Or are you interested in a Clean System partnership?

Please get in touch!

»The Clean System Seal is visible evidence of the high operational safety of our construction machinery, both in sales and in our rental fleet.«

SCHÜNKE BAUZENTRUM
BAUMASCHINEN GMBH

»We're continuously working on innovative solutions for maximum driver safety and improved construction site efficiency. By participating in the Clean System initiative, we're consolidating our position as a professional, reliable partner for our customers.«

ZEPPELIN
BAUMASCHINEN GMBH

»Customer focus is a central element of our corporate philosophy. The Clean System partnership highlights our above average quality and service standards.«

ALLU GROUP

»Being in good hands – is part of our mission statement. After all, our customers work in a demanding and often dangerous environment. The Clean System Seal makes an important contribution to occupational safety and therefore builds trust.«

KIESEL GMBH

*»There is nothing better for a
business that has to change tools
several times a day!«*

UNDENIABLY EFFICIENT

A fully hydraulic OilQuick quick coupler not only reduces change-over times, but also increases your excavator's range of applications. According to the figures: Our customers can increase their machine utilisation by up to 90 percent and improve their fleet productivity by an average of 30 percent.

WITH BIG IDEAS MOVE BIG THINGS

OilQuick has been shaping the quick coupler market for over a quarter of a century – generating ideas, solving problems, being inventive, optimising processes and providing services. We combine pioneering spirit with experience and future with tradition.

While consciously remaining a family-run SME.

We are a dedicated team of engineers, technicians, quality managers, logistics experts and service staff – and each and every quick coupler incorporates our decades' of expertise. It is our passion to develop innovative solutions for construction site issues, always in close cooperation with machine operators, fleet managers and the specialist dealers.

**WE ARE CERTAIN: THE QUICK COUPLER IS NOT
DONE BEING INVENTED!**

DID YOU KNOW THIS?

The first quick coupler sold in Germany is still in use today – having completed well over 40,000 working hours and now on excavator number five.
